PyBOMBS & CGRAN — An Introduction

Martin Braun

GNU Radio Conference 2016

Outline

1. How do I even get started with GNU Radio?

Let's assume for just one minute...

- ... that I have no idea how to get started with GNU Radio.

Let's assume for just one minute...

- . . . that I have no idea how to get started with GNU Radio.
- I mean, I literally don't even know how to run the examples and tutorials.

Let's assume for just one minute. . .

- . . . that I have no idea how to get started with GNU Radio.
- I mean, I literally don't even know how to run the examples and tutorials.
- No worries. We've got you covered.

Top 4 easiest ways to install GNU Radio

1. The GNU Radio Live DVD

Top 4 easiest ways to install GNU Radio

1. The GNU Radio Live DVD
2. `apt-get install gnuradio` — use your package manager, whatever that is

3. PyBOMBS
4. Source Builds

GNURadio
THE FREE & OPEN SOFTWARE RADIO ECOSYSTEM

What you will need

- A Linux or Mac box (one day we'll have Windows covered, but not today)
- Fedora, Ubuntu, CentOS, Debian, and probably many other distros fine
- Python 2.7

Getting started with PyBOMBS

- Install PyBOMBS: `pip install pybombs`
- Optionally install PyBOMBS GUI: `pip install pybombs-qtgui`
- Let's just install GNU Radio and all major dependencies:
- `pybombs prefix init -a default -R gnuradio-default /path/to/prefix/`
